28 Halloween, Review Circles & Ovals; HAP Trunk or Treat – 5:00-8:00pm	29 NUT Day	30	31 Halloween Bazaar; Class Party 10:30am			

Autumn has finally arrived. With Fall brings apples followed by pumpkins which will feed our science theme of floating vs. sinking and life cycles. Leaves will be explored as we learn about our deciduous trees around us. Our letters this month will include B and C, as well as counting to 2. The oval shape will be introduced as a variation of last month's circle shape. Our month ends with our first holiday, Halloween, where we will enjoy some fun at our school wide Halloween Bazaar and our class party.
